

Midnight Express

Dave Bromley & Paul Longley have been performing together for about 8mths playing regularly throughout far north Qld. Paul, a trained musician from an early age, plays a stack of different instruments including keyboards, harmonica, Nth East Thai Khaen, didgeridoo, stomp box, guitar & trumpet. Teaming this up with Dave Bromley, a self taught guitarist/ singer songwriter & powerful vocalist, who has penned well over 30 original songs, many of which were inspired by and reflect life up here in the north. You don't need a whole band when you've got Midnight Express! These guys have a great energy together on stage and have a huge repertoire of covers by artists such as Goanna, Paul Kelly, Neil Murray, Cold Chisel as well as Neil Young & Eric Clapton to name a few. With the diverse range of instruments played by Paul it's hard to imagine that there is only the 2 of them performing. They have just recently taken on the name 'Midnight Express' & are in the process of recording their first Cd as a duo.
